PAT-ROLL JOBS

It is always pleasing to note that the Administration is not going to be stampeded into a program of pat-roll jobs. Such a program would be a step toward the establishment of a new relief order. There is no need for it. There is work in the community and there are jobs to be had in private industry. Many of the jobs are going begging. Many employers are willing to pay good wages to get the right kind of help. Many are willing to train workers for the jobs they have to offer. Many are offering their help to encourage the maintenance and the expansion of employment. Many private employers of Appomattox County are willing to help in the solution of the problem of unemployment. They are willing to cooperate with the Virginia Employment Service in Appomattox County. They are willing to do their part in the solution of the problem.

Let us hope that Congress will not be stampeded into a program of pay-roll jobs. Let us hope that Congress will not be stampeded into a program of pat-roll jobs.
